

Junior PHP/ Symfony Developer – Berlin (m/w)

Looking for a place where your ideas and visions have a meaningful impact and you take responsibility from the beginning? Then get ready to unleash your inner nerd and act out your love for software development!

Who we're looking for

- You should have at least 2 years of experience in PHP and Symfony
- You fluently speak SQL (MySQL)
- You have experience with testing environments, e.g. PHPUnit
- You are experienced in using JSON RESTful APIs and have no trouble handling source control management systems like Git and SVN
- You have a passion for UIs and usability and for creating beautiful object-oriented pattern-driven code
- Preferably strong Linux skills and experience in CSS3/SCSS, jQuery, AngularJS, Node.js and Elasticsearch

What else is important?

- You are able to prioritize and execute on personal and team set goals
- You successfully finished your academic studies in the field of computer sciences or equivalent professional experience
- You are fluent in English and convince us with excellent written and oral communication skills

What your tasks look like

- Together we will develop and improve the best website creation and publishing tools for SMBs on the market
- You will utilize AI to inject corporate identity into beautiful unique websites
- You will seek for new ways to improve and advance our own CMS and CRM called "James"
- Through continuous observation of our user's behavior you always strive for the best UIs which allows users to operate faster

What we offer?

- You work directly with our founders and get the opportunity to be a part of a new-built Dev-team
- You have the chance to actively shape our product and create something truly meaningful – for our users and yourself
- Our "we can do it" mindset coupled with our start up style atmosphere allows us to pursue an agile approach and to offer an innovation-friendly workplace
- Free choice of your own working gear
- Prime office location – in the heart of Berlin, where coffee flatrate, fruits and other extras await you

How your new career starts

Websitebutler is growing rapidly and has the vision to become the number one full-service-website-provider. If you are ready for this challenge, we would be happy to receive your application including your start date and your salary expectations. Any questions? Feel free to contact Matthias Behm: jobs@websitebutler.de
